Introducing the Articulated Forklift Range

IBEX Articulated Forklifts are purpose-built for navigating narrow aisles and tight spaces with ease. The innovative, pivoting mast design allows for seamless maneuverability, enabling operators to optimise storage and streamline operations. Perfect for warehouses and distribution centers, IBEX Articulated Forklifts enhance productivity by reducing the need for multiple machines and maximising efficiency.

IBEX Articulated Forklifts are built for durability and efficiency, offering a practical solution for material handling in confined or busy environments. Their innovative design, operator focused controls, and maneuverability support safer and more precise load handling. In addition to performance and flexibility, IBEX Articulated Forklifts prioritise reliability. Every model undergoes rigorous testing to ensure consistent operation in demanding environments. Engineered with high-quality components, these forklifts minimise downtime and reduce maintenance requirements, improving overall productivity.

With the integration of advanced technology, an IBEX Articulated Forklift offers a wide range of benefits, including enhanced lift height and load capacity, operator ergonomics and safety, user-friendly operation, and highly efficient AC technology and components for reduced operating costs. These features contribute to increased productivity and optimised warehouse utilisation.

And that's not all – every truck is backed by a standard 5-year, 5,000-hour factory warranty – fundamental reasons why our customers enjoy unparalleled reliability at the most competitive total cost of ownership.

For dependable performance, design excellence, and trusted materials handling solutions, look no further than IBEX.

IBEX Articulated
Forklifts, offer
the latest
innovations
in design and
leading features
in the market.

Our operations demand resilient trucks capable of handling our workload with minimal risk of interruptions. The market leading features, such as the electronic hydraulic interface, guiding lasers, lithium batteries, and superior ergonomics gave us assurance that this machine would deliver the results we needed. Driver satisfaction is paramount, and in our case unanimous: the IBEX outshines and out performs other articulated trucks in the market and is our preferred articulated partner.

Get the advantages of IBEX

Storage Density

IBEX articulated trucks are specifically engineered to optimise storage density within warehouse environments. With their ability to operate in narrow aisles, IBEX trucks enable businesses to maximise vertical space utilisation and store more inventory within the same footprint.

Versatility

IBEX articulated trucks streamline warehouse operations by eliminating the need for multiple types of forklifts. They can function as counterbalance trucks for offloading in the yard and seamlessly transition loads to indoor racking. This versatility reduces the need for additional equipment, simplifying logistics and improving overall efficiency.

Ease of Uses

IBEX articulated trucks are designed for ease of use both indoors and outdoors. Operators can effortlessly manoeuvre loads thanks to features like large rubber tires, which enable smooth loading and offloading even in semi-rough yards. This ease of use translates to time and cost savings for businesses.

Productivity

By using a single IBEX articulated truck, operators can increase productivity and eliminate time-consuming double handling. With swift “truck to rack” operations and the ability to transport loads from trailer to racking position in a single operation, IBEX trucks help optimise workflow and minimise downtime.

Cost-effectiveness

Investing in an IBEX articulated truck can be more cost-effective than purchasing multiple specialised forklifts. The versatility and efficiency of IBEX trucks can lead to reduced equipment costs, lower maintenance expenses, and increased overall profitability for businesses.

IBEX articulated trucks offer a comprehensive solution for materials handling challenges, combining versatility, efficiency, productivity, ease of use, and cost-effectiveness to meet the diverse needs of modern warehouses and distribution centres.

After Sales & Support

At IBEX, we understand that reliable servicing and maintenance are essential to keep your operations running smoothly.

That's why we offer comprehensive support tailored to meet the unique needs of your IBEX forklift fleet.

With our commitment to excellence and customer satisfaction, you can trust us to keep your equipment operating at peak performance.

Dedicated Service Team

Our experienced and factory-trained service technicians are dedicated to ensuring the longevity and reliability of your IBEX forklifts. Equipped with extensive knowledge of IBEX products and advanced diagnostic tools, our service team is ready to handle any maintenance or repair needs promptly and efficiently. Whether it's routine maintenance, troubleshooting issues, or conducting repairs, you can rely on our service technicians to deliver exceptional service every time.

Scheduled Maintenance Programs

To minimise downtime and maximise the lifespan of your IBEX forklifts, we offer tailored scheduled maintenance programs designed to suit your operational requirements. Our proactive approach to maintenance helps identify potential issues early, preventing costly breakdowns and ensuring uninterrupted productivity.

With regular inspections and preventative maintenance tasks performed by our skilled technicians, you can have peace of mind knowing that your IBEX forklifts are always in optimal condition.

Genuine Parts and Accessories

We understand the importance of using genuine parts and accessories to maintain the performance and reliability of your IBEX forklifts. That's why we stock a 100% comprehensive inventory of genuine IBEX parts and accessories, ensuring quick access to the components you need for repairs and replacements.

24/7 Emergency Support

In the event of unexpected breakdowns or emergencies, our 24/7 emergency support team is available to provide immediate assistance. Whether it's after-hours service calls or urgent repairs, you can count on our dedicated support team to respond promptly and restore your IBEX forklift to operation as quickly as possible.

Customer Training & Support

To empower your staff and optimise the performance of your IBEX forklift fleet, we offer comprehensive training programs tailored to your specific needs. From operator training to maintenance best practices, our expert trainers provide hands-on instruction to ensure your team has the knowledge and skills to operate and maintain your IBEX forklifts safely and efficiently.

Warranty

All IBEX forklifts are backed by a 2 year or 2000 hours parts warranty as standard, giving you peace of mind and a sound return on investment.

Back Up Machinery

With a comprehensive rental fleet and dedicated support machines of various mast heights, we are always able to keep your operation moving in the event of any unexpected downtime.

With IBEX, you can trust that your forklift servicing and maintenance needs are in good hands – our after sales initiatives are all designed to keep your IBEX forklifts operating at their best, so you can focus on what matters most—growing your business.

FEATURES

- High capacity lithium iron phosphate batteries
- Full AC 80 volt operating system
- 220° articulating angle
- Electro hydraulic multi way valve
- Operator sensing
- Guidance assistance options
- Numerous configurations
- Ergonomically designed cab
- Regenerative braking & lowering

SPECIFICATIONS

Specification	15N/20S/25W/30W	Battery type	Lead Acid or Lithium
Capacity	1500kg - 3000kg	Battery capacity range	300Ah to 900Ah
Mast range	4300mm - 15000mm	Battery voltage	80V
Travel speed	16km/h	Weight of truck (With Battery)	6400kg - 7800kg
Lift speed (Laden)	0.55	Standard colour	Black
Lift speed (Unladen)	0.7	Mast rotation	220 Degrees
Front tyres	413 x 178mm	Tilt fwd/Backward	3/1 Degrees
Rear tyres	457 x 178mm	Overhead guard height	2270mm
Gradeability (Laden)	18%	Load centre	600mm
